Cultural Safety In Aotearoa New Zealand

Cultural Safety In Aotearoa New Zealand-Dianne Wepa 2015-05-18 This second edition presents a range of theoretical and practice-based perspectives adopted by experienced educators active in cultural safety education.

Cultural Safety In Aotearoa New Zealand-Paul Spoonley 2015 In this second edition of Cultural Safety in Aotearoa New Zealand, editor Dianne Wepa presents a range of theoretical and practice-based perspectives adopted by experienced educators who are active in cultural safety education. Thoroughly revised to incorporate the latest methods and research, this edition reflects updates in government policies and nursing practices, and features new chapters on ethical considerations when working cross-culturally, as well as the legislative requirements of the Nursing Council of New Zealand. Each chapter includes key terms and concepts, practice examples providing content from healthcare workers' everyday experiences, reflective questions to encourage the assimilation of ideas into practice, and references to allow further exploration of the issues discussed. Cultural Safety in Aotearoa New Zealand will equip students, tutors, managers, policy analysts and others involved in the delivery of healthcare with the tools to acknowledge the importance of cultural difference in achieving health and well-being in diverse communities.

A Guide for International Nursing Students in Australia and New Zealand-Bernadette Hall 2008 "A Guide for International Nursing Students is an essential resource for overseas nurses and international students of nursing in Australia and New Zealand. It assists the reader to develop essential communication skills for practice as a student and registered nurse in the region. A companion CD allows the reader to become familiar with authentic nursing conversations and nursing handovers."—Provided by publisher.

Bringing Culture into Care-Bradford Hami

Yatdjulgin-Odette Best 2021-07-31 Yatdjulgin: Aboriginal and Torres Strait Islander Nursing and Midwifery Care introduces students to the fundamentals of health care of Indigenous Australians, encompassing the perspectives of both the client and the health practitioner. Written for all nurses and midwives, this book addresses the relationship between Aboriginal and Torres Strait Islander cultures and mainstream health services and introduces readers to practice and research in a variety of healthcare contexts. This new edition has been fully updated to reflect current research and documentation, with an emphasis on cultural safety. Three new chapters cover Torres Strait Islander health and wellbeing, social and emotional wellbeing in mainstream mental health services and quantitative research. Chapter content is complemented by case study scenarios, author reflections and reflection questions. These features illustrate historical and contemporary challenges, encourage students to reflect on their own attitudes and values, and provide strategies to deliver quality, person-centred health care.

Early Childhood Education in Aotearoa New Zealand: History, Pedagogy, and Liberation-J. Ritchie 2013-12-09 Taking as a starting point the work of Aotearoa New Zealand to provide an education system that includes curriculum, pedagogy, and language from indigenous Maori culture, this book investigates the ensuing practices, policies, and dilemmas that have arisen and provides a wealth of data on how truly culturally inclusive education might look.

Health Care and Indigenous Australians-Kerry Taylor 2010-01-01 Health Care and Indigenous Australians: Cultural safety in practice uses a cultural safety approach for undergraduate health students or professionals wanting to improve their practice in relation to Indigenous Australian clients. With fourteen chapters that include activities, critical thinking questions, poems, 'making it local' activities, and case scenarios, readers should find that the material challenges them to think in new ways about Indigenous health and about their practice more generally.

Precarity-Shish Groot 2017-09-01 Leading UK economist Guy Standing has referred to the precariat as a class-in-the-making. The Precariat are our fellow citizens — be they poor, elderly, disabled, homeless, estranged from their cultural communities, refugees, engaged in casual work — who lead lives of uncertainty, dependency, powerlessness, perilsousness and insufficiency. They are the outcome of the gradual dismantling of the welfare state and the withering of union representation. They are also the victims of the changing nature of work. This important book moves beyond the world of labour to identify and illustrate other forms of precarity in New Zealand, including the lack of opportunities for cultural expression and the struggle to be safe. It focuses on New Zealand’s emerging class, not to further vilify it but rather to place its members’ lived experience in plain sight. As the editors say, ‘It is time that all New Zealanders understood the reality of what many of our citizens endure in the struggle to make ends meet and live dignified lives.’

Ethics and Law for Australian Nurses-Kim Atkins 2014-08-04 The second edition of Ethics and Law for Australian Nurses is comprehensive in approach and allows students to understand the relationship between the legal and ethical frameworks of nursing practice. With an Australian focus, the book recognises the diversity of nursing practices and practice settings while emphasising their uniform aim of improving health and well-being throughout. Thoroughly revised to incorporate the latest methods and research, this edition features updates to legislation and new chapters on end-of-life decisions and Indigenous health care. It introduces readers to the 'Giving Voice to Values' approach to ethics and makes extensive use of case studies, legal case extracts, practical examples and reflective questions to illustrate key concepts throughout. Ethics and Law for Australian Nurses provides an innovative and intuitive skills-based approach to nursing ethics and the legal context of nursing practice.

Psychiatric & Mental Health Nursing - E-Book-Ruth Elder 2011-06-02 The new edition of Psychiatric and Mental Health Nursing focuses on practice in mental health and psychiatric care integrating theory and the realities of practice. Mental wellness is featured as a concept, and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders. The holistic approach helps the student and the beginning practitioner understand the complex causation of mental illness, its diagnosis, effective interventions and treatments, and the client's experience of mental illness.

Public Health-Pranee Liamputtong 2016-05-05 This book provides students with a comprehensive overview of Australian and international public health issues and contexts. It explores recent changes in the local public health field, as well as complex global public health issues, and engages with the political and cultural impacts these have on public health systems. The book aims to deepen students' understanding of the determinants of health, historical and theoretical perspectives of public health, and current health research. Through consideration of new perspectives, it introduces the latest public health discourses and explores issues of health promotion and health inequalities that inform much of the understanding of public health today. Drawing on more than 25 years' experience, Pranee Liamputtong leads a stellar author team to present this essential resource. Each chapter includes learning objectives, key words, tutorial exercises and further reading, as well as illustrative and informative case studies to aid students' understanding of key concepts.
healthcare practitioner. It carefully examines the very different maternity care systems in Australia and New Zealand, exploring both anatomical and collaborative practice and importantly documents the recent reforms in Australian midwifery practice. Midwifery: Preparation for Practice places women and their babies safely at the centre of midwifery practice and will guide, inform and inspire midwifery students, recent graduates and experienced midwives alike. Key contributors from Australia and New Zealand - Critical Thinking Exercises and Research Activities - Midwifery Practice Scenarios - Reflective Thinking Exercises and Case Studies - Instructor and Student resources on Evolve, including Test Bank questions, answers to Review Questions and PowerPoint presentations. - New chapter on Models of Health - Increased content on cultural considerations, human rights, sustainability, mental health, obesity in pregnancy, communication in complex situations, intervention, complications in pregnancy and birth and assisted reproduction - Midwifery Practice Scenarios throughout.

Once Were Warriors-Emili Martens In 1990 unknown Maori author Alan Duff suddenly became both famous and notorious in New Zealand for his first novel Once Were Warriors. The violent story of a poor urban Maori family aroused much controversy in New Zealand society, and the Maori community in particular. Many Maori commentators condemned the novel for its negative and allegedly racist portrayal of the indigenous Maori people, accusing Duff for hanging out the dirty linen and blaming the victim. Four years later, the homonymous film by Maori director Lee Tamahou led to similar fame and controversy. On the one hand, critics strongly disapproved of the commercial indigenous film on social, political and aesthetic grounds. On the other hand however, Once Were Warriors became the most successful motion picture in the history of New Zealand cinema, grossing over 6.7 million NZ dollars in the national box office and reaching a large international audience. Once Were Warriors was not just a novel or film, but a powerful cultural representation which had a significant impact on New Zealand society. In this richly illustrated book Emili Martens examines the impact of Once Were Warriors in Aotearoa New Zealand by exploring the new context of cultural representations on the film and its aftermath in postcolonial New Zealand society: Why did Once Were Warriors cause such a controversy within the Maori community? Were the underlying metaphors of the public debate on both the novel and the film in New Zealand society? And what did the heated reception of Once Were Warriors say about the position and identity of the indigenous Maori people within modern New Zealand? Bringing together a wide variety of popular and academic texts, the author discusses these urgent questions in relation to timely New Zealand and wider postcolonial issues such as racial stereotypes, cultural politics, ethnic relations, indigenous media and Maori identity. As an interdisciplinary Cultural Studies endeavour, this book is surprisingly accessible and will prove interesting reading for anyone who wishes to know more about cultural identity, postcolonial representation and indigenous filmmaking in Aotearoa New Zealand.

Midwifery-Sally Fairman 2018-10-07 Endorsed by the Australian College of Midwives (ACM) and the New Zealand College of Midwives (NZCM), Midwifery: Preparation for Practice has long been upheld as the definitive midwifery text for Australian and New Zealand midwifery students. The Fourth Eye-Brendan Hokewhitu 2013 The Fourth Eye brings together Indigenous and non-Indigenous scholars to provide a comprehensive and critical account of the intricate and complex relationship between the media and Maori culture. Examining the Indigenous mediascape, The Fourth Eye shows how Maori filmmakers, actors, and media producers have depicted conflicts over citizenship rights and negotiated the representation of Indigenous people.

Crafting Aotearoa-Damian Skinner 2020-01-18 A LANDMARK PUBLICATION THAT TAKES ANOTHER LOOK AT CRAFT AND IT'S BROADER CULTURAL ROLE. A major new history of craft that spans three centuries of making and thinking in Aotearoa New Zealand and the wider Moana (Pacific). Paying attention to Pākehā, Māori, and island nations of the wider Moana, and old and new migrant makers and their works, this book is a history of craft understood as an idea that shifts and changes over time. At the heart of this book lies the relationships between Pākehā, Māori and wider Moana artistic practices that, at different times and for different reasons, have been described by the term craft. It tells the previously untold story of craft in Aotearoa New Zealand, so that the connections, as well as the differences and tensions, can be identified and explored. This book proposes a new idea of craft that acknowledges Pākehā, Māori and wider Moana histories of making, as well as diverse community perspectives towards objects and their uses and meanings.

ACCCN's Critical Care Nursing-Leanne Atkin 2016-01-04 With each edition, ACCCN's Critical Care Nursing has built on its highly respected reputation. Its contributors aim to encourage and challenge practising critical care nurses and students to develop world-class critical care nursing skills in order to ensure delivery of the highest quality care. The Handbook of Social Research Ethics-Donna M. Mertens 2009 Brings together international scholars across the social and behavioural sciences and education to address those ethical issues that arise in the theory and practice of research within the technologically advancing and culturally complex world in which we live.

Disciplining the Savages, Savaging the Disciplines-Martin N. Nakata 2007 An alternative reading for those struggling at the contradictory and ambiguous intersections of academia and Indigenous experience, this book moves beyond the usual criticisms of the disciplines providing an alternative for understanding Indigenous peoples.

An Introduction to Community and Primary Health Care-Diana Guny 2020-11-30 Community and primary health care nursing is a rapidly growing field. Founded on the social model of health, the primary health care approach explores how social, environmental, economic and political factors affect the health of the individual and communities, and the role of nurses and other health care practitioners in facilitating an equitable and collaborative health care process. An Introduction to Community and Primary Health Care provides an engaging introduction to the theory, skills and range of professional roles in community settings. This edition has been fully revised to include current research and practice, and includes three new chapters on health informatics, refugee health nursing and developing a career in primary health care. Written by an expert team, this highly readable text is an indispensable resource for any reader undertaking a course in community and primary health care and developing their career in the community.

The Spirit Catches You and You Fall Down-Anne Fadiman 2012-04-24 A study in the collision between Western medicine and the beliefs of a traditional culture focuses on a hospitalized child of Laotian immigrants whose belief that illness is a spiritual matter comes into conflict with doctors' methods.
Living with Chronic Illness and Disability: Principles for Nursing Practice provides the knowledge and skills necessary for nursing and allied health students to provide quality, competent care to people living with a chronic illness or disability. The text has a strong evidence base, but is founded in reality. It includes practical, useful principles for holistic care, self-management, and a multidisciplinary approach. It also covers a range of issues affecting patients, carers and families, with a focus on empowering individuals as they adjust to the life-changing journey of chronic disease and disability. Edited by Esther Chang and Amanda Johnson, and written by a multidisciplinary team of expert clinicians and academics, this book will enhance your confidence when caring for people with a range of major and common conditions, including heart disease, stroke, cancer, asthma, diabetes, obesity, dementia, mental illness and palliative care. Case studies and accompanying exercises give insights into lived experience Links to latest journal articles, media, further reading and online resources to enhance learning Questions to help you reflect on your practice Exercises and learning activities to understand contexts eBook included with every print purchase Additional resources on Evolve eBook on VitalSource Student and instructor resources Links to multimedia resources and reflective questions to assist learning and promote self-inquiry Fully updated and refreshed to reflect current knowledge, data and perspectives

Decolonizing Methodologies - Linda Tuhiwai Smith 2016-03-15 'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

Routledge International Handbook of Nurse Education: Sue Dyson 2019-12-20 While vast numbers of nurses across the globe contribute in all areas of healthcare delivery from primary care to acute and long-term care in community settings, there are significant differences in how they are educated, as well as the precise nature of their practice. This comprehensive handbook provides a research-informed and international perspective on the critical issues in contemporary nurse education. As an applied discipline, nursing is implemented differently depending on the social, political and cultural climate in any given context. These factors impact on education, as much as on practice, and are reflected in debates around the value of accredited programmes, and on-the-job training, apprenticeship, undergraduate and postgraduate pathways into nursing. Engaging with these debates amongst others, the authors collected here discuss how, through careful design and delivery of nursing curricula, nurses can be prepared to understand complex care processes, complex healthcare technologies, complex patient needs and responses to therapeutic interventions, and complex organizations. The book discusses historical perspectives on how nurses should be educated; contemporary issues facing educators; teaching and learning strategies; the politics of nurse education; education for advanced nursing practice; global approaches; and educating for the future. Bringing together leading authorities from across the world to reflect on past, present and future approaches to nurse education and nursing pedagogy, this handbook provides a cutting-edge overview for all educators, researchers and policymakers concerned with nurse education.

Immigrant and Refugee Youth and Families: Mo Yee Lee 2021-05-19 The United States is known as a nation of immigrants. Over the years the composition of immigrants has significantly changed. From receiving immigrants from primarily Europe, the United States is now home to people from countries around the globe. One of the common challenges encountered by immigrant and refugee families and youth is to successfully settle and integrate into the host country that is culturally different from their country of origin. Depending on the context of migration, families and youth oftentimes face additional challenges ranging from potential trauma prior to immigration, language, employment, education, healthcare accessibility, integration, discrimination, etc. This book focuses on different issues experienced by immigrant and refugee families and youth as well as programs implemented to serve these populations. These issues pertain to the individual at a personal level (attachment, trauma, bi-cultural self-efficacy, behavioral problems, and mental health), family (parenting, work-family conflict, problems such as domestic violence), community (risk factors such as racial discrimination and protective factors such as social capital) and policy (immigration policy and enforcement). Part I of the book focuses on immigrant and refugee families and Part II focuses on immigrant and refugee youth. By increasing our awareness of issues pertinent to immigrant and refugee families and youth, we can better provide culturally respectful and sensitive services and policy to this population at a time when they are navigating between their host culture and home culture in addition to dealing with challenges encountered in resettlement. The book is a significant new contribution to migration studies and social justice, and will be a great resource for academics, researchers, and advanced students of social work, public policy, law and sociology. The chapters in this book were originally published in the Journal of Ethnic & Cultural Diversity in Social Work.

Restoring the Balance - Gail Guthrie Valaskakis 2009 First Nations peoples believe the eagle flies with a female wing and a male wing, showing the importance of balance between the feminine and the masculine in all aspects of individual and community experiences. Centuries of colonization, however, have devalued the traditional roles of First Nations women, causing a great gender imbalance that limits the abilities of men, women, and their communities in achieving self-actualization. Restoring the Balance brings to light the work First Nations women have performed, and continue to perform, in cultural continuity and community development. It illustrates the challenges and successes they have had in the areas of law, politics, education, community healing, language, and art, while suggesting significant options for sustained improvement of individual, family, and community well-being. Written by fifteen Aboriginal scholars, activists, and community leaders, Restoring the Balance combines life histories and biographical accounts with historical and critical analyses grounded in traditional thought and approaches. It is a powerful and important book.
